

battery recycling target

recycling targets

Portable battery producers must cover the costs of collection, treatment and recycling of enough waste batteries to meet their obligation. Their obligation is calculated based on the amount of portable batteries that they sell and the current recycling target outlined below:

year	recycling targets
2010	10%
2011	18%
2012	25%
2013	30%
2014	35%
2015	40%
2016	45%
2016 onwards	45%
