

How do I know it's an HHM?

Look at your bill

Does it state HHM

Is there data that gives more information than 'day / night

Did you get a letter from the EA / SEPA / DoE?

These do have a habit of not getting through

Not getting the letter does not mean you are free!

Ask your energy supplier!

They will tell you immediate and give you the consumption

Look at the bill or even the meter (MPAN number needed for registration)

00 means HHM

S	00	111	222	
	12	3456	7890	123
