

*“Having completed a Carbon Footprint for Benders Paper Cup products, I was looking to get a comprehensive peer review carried out. The review was detailed, insightful and challenging, backing up the analysis with good references.”*

*Allan Paterson, Technical Development Manager, F Bender Limited*

We work with small and medium sized companies to help improve their environmental credibility. We specialise in using carbon footprints and life cycle assessments to reduce costs and increase green performance.

## Our Key Carbon Services

- Carbon footprinting (PAS 2050)
- Life cycle assessments (LCA)
- Carbon neutrality (PAS 2060)
- Sustainable packaging
- Footprint/LCA reviews & next steps

## Benefits of Using Carbon Services

- Illustrate your environmental commitment to retailers and customers
- Identify potential cost savings across the business
- Understand the environmental impact of your business, products or packaging
- Illustrate the sustainability of your products, packaging and services
- Differentiate your company and products

**“The work conducted by Valpak has been critical to our understanding and management of the production and recovery of silage wrap, with regard to the environment.”**

**Andrew Green, Managing Director,  
BPI Recycled Products**
