

Data Administrator

Line Manager

Team Leader

Overall Purpose

The Data Administrator will collect and process data relating to our clients' obligations under the Packaging, WEEE and Batteries regulations. The Data Administrator will work alongside Account Managers and Data Team Managers to compile data and calculate obligations for a range of accounts.

The Data Administrator will liaise with suppliers of Data Insights' customers to collect information by email, as well as spending time at client sites to undertake weighing exercises. They will also interact with other departments within Valpak, as well as external organisations, and will therefore need excellent communication skills and a high level of professionalism.
