Recycling Services

How Valpak can help

Valpak's Recycling Services provide a range of recycling and waste management services for retailers, wholesalers, distribution centres, manufacturers and local authorities throughout the UK.

We operate on your behalf as a waste management broker and work with a portfolio of compliant contractors who provide flexible, consistent and reliable services to meet your recycling and waste management requirements.

We handle all types of waste and recycling materials including paper, cardboard, plastic, glass, metal, food waste, textiles, light bulbs, batteries, waste electronics and hazardous waste, with the ability to adapt to changing technologies in the industry.

As an existing Valpak compliance member, if you use our recycling and waste management services, we can:

1. Reduce your compliance costs by offsetting the tonnage of recycling we collect from your business against your producer obligations.
2. Help meet your duty of care requirements by ensuring all legal aspects of your recycling and waste collections are met.
3. Provide access to our Waste Tracker, which will enable you to stay up-to-date with waste legislation, track your business's compliance position and easily produce waste performance reports.

Each year we carry out over 40,000 individual recycling and waste collections and uplift the following tonnages of recyclable materials...

350 tonnes
of IT products

400 tonnes
of metal cans

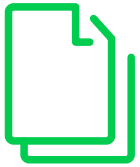

450 tonnes
of wood

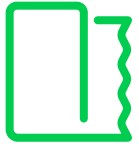

500 tonnes
of rigid plastics

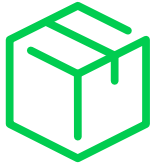

550 tonnes
of plastics

1.5k tonnes
of paper

3.5k tonnes
of plastic film

40k tonnes
of cardboard

Last year our **customers saved over £195,000** by offsetting the recycling we collected against their compliance obligations.

We also provide a range of recycling and waste management services for other products such as WEEE, electronic cigarettes, flytipping **and** customer returns stock.

WEEE

We offer solutions for a single WEEE stream or more complex mixed WEEE or packaged WEEE loads for both nonhazardous and hazardous WEEE.

Electronic Cigarettes

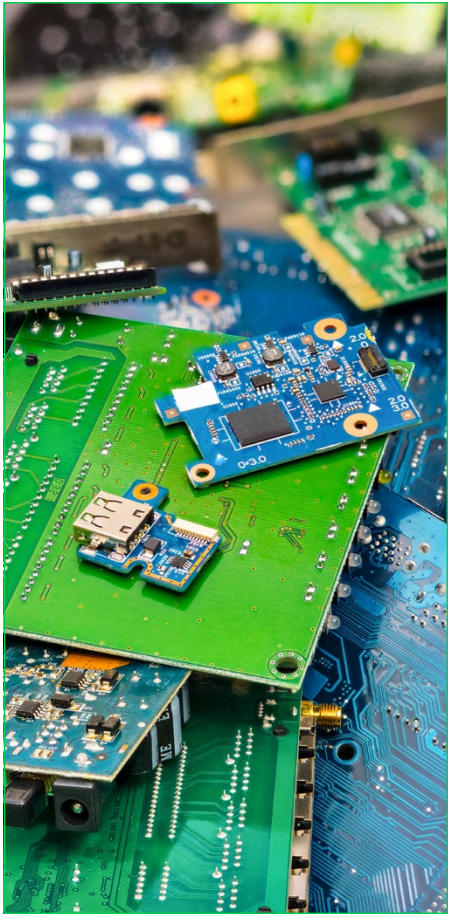

Our trusted contractors have developed solutions for all types of electronic smoking devices.

Flytipping

Our highly responsive service can mobilise contractors to your site quickly to minimise the visual and physical impact of flytipping, as well as any potential health and safety issues.

Customer Returns Stock

We can collect and treat your customer returns to maximise the revenues you receive by offering bespoke recycling and re-use solutions.

Other services we offer.

Valpak is the leading provider of environmental compliance, data and resource management services with over 20 years of experience supporting businesses in the UK and internationally.

Compliance and International Compliance

We eliminate the administrative and resource-intensive burden of complying with environmental legislation both in the UK and overseas.

Data Insights

We provide tailored, flexible and secure data solutions for all of your compliance needs. Services include the collation and submission of data, and access to our Waste Tracker and Insight Platform.

Sustainability Consultancy

We provide advice and support to help achieve your sustainability goals including energy management and procurement, carbon management, Extended Producer Responsibility and life cycle assessments.

Why choose Valpak?

Our expert team of over 10 waste management professionals provide our customers with a single point of contact, consolidated invoicing, regular management reports to benchmark performance, market reports to provide an insight into the waste management industry and a range of competitive and transparent pricing models.

We can highlight best practice and provide equipment for waste handling and waste prevention, carry out independent Zero Waste to Landfill audits, and identify closed loop recycling opportunities.

We pride ourselves on the added value and support we offer our customers in terms of strategic advice and awareness of frequently complicated and fast changing government policy and legislation.

Our services are ISO9001, ISO14001, ISO27001, OHAS18001 and SSIP accredited which provides additional confidence in our support.

By choosing Valpak you can help protect your business and your brand against risk of prosecution, fines, waste crime, environmental harm, reputational damage and adverse PR.

We provide resource management expertise, knowledge and practical solutions that add value whilst **ensuring your recycling and waste is managed in an effective, reliable and safe way.**
