# Introduction to ESG.

## Understand what it means for your business

Environmental, Social and Governance (ESG) performance is now a defining measure of business resilience and reputation. Customers, investors, and regulators increasingly expect transparency, responsibility, and measurable progress.

Valpak's ESG Solutions help businesses turn these expectations into opportunity, providing the structure, expertise, and data needed to make ESG practical, measurable, and commercially valuable.

# What ESG means for your business.

In today's environment, ESG isn't just a "nice-to-have." It's a strategic imperative that supports risk management, compliance, and competitiveness.

## The business case for ESG:

### **Risk management**

Anticipate and mitigate regulatory, customer, brand and climate-based risks.

### **Licensing and contract access**

Position your business as a trusted, compliant supplier.

### **Reputation and brand value**

Build trust, engage stakeholders, and strengthen brand integrity.

### **Regulatory compliance**

Stay ahead of evolving legislation.

### **Operational efficiency**

Reduce energy, waste, and emissions through data-led insights.

### **Talent attraction and retention**

Embed sustainability and wellbeing into company culture.

### **Funding and partnerships**

Improve eligibility for public contracts and ESG-linked finance.

# Relevant regulations and frameworks

Valpak helps businesses navigate the fast-changing ESG landscape and comply with key regulations and reporting frameworks, including:

**GRI** - Global Reporting initiative

**SBTi** - Science-Based Target Initiatives

**CSRD** - Corporate Sustainability Reporting Directive

**CDP** - Carbon Disclosure Project

**ISSB** - International Sustainability Standards Board

**UK SRS** - UK Sustainability Reporting Standards

ISO environmental and sustainability standards

**UN SDGs** - International targets

## Our support and expertise.

---

Our structured approach begins with a **Position Audit**, identifying your current ESG performance, legislative gaps, and improvement opportunities. From there, we build a clear, actionable strategy aligned with your stakeholders, supply chain, and goals.

Valpak's experts translate complex frameworks into practical, credible action — underpinned by decades of compliance experience and industry-leading data systems.

# Already have an ESG strategy? We can strengthen it.

For businesses already progressing on their ESG journey, or those with a strategy in place, Valpak offers an independent Supply Chain Peer Review to ensure your approach remains competitive, credible, and future-proof.

Our review provides:

**Competitor analysis** – Understand how your ESG commitments, targets, and disclosures compare with peers in your sector.

**Supply chain performance review** – Identify gaps in supplier data, risk exposure, and transparency across your value chain.

**Legislative readiness check** – Assess emerging regulations that could affect your operations or supply chain, ensuring you stay ahead of compliance obligations.

**Actionable recommendations** – Targeted insights to refine, strengthen, and enhance your existing ESG programme.

This service helps organisations benchmark their progress, demonstrate leadership, and confidently communicate ESG achievements to customers and investors.

# Complementary services

Strengthen your ESG strategy with integrated services designed to deliver measurable results.

**Carbon Reduction Planning & Science-Based Targets**

We calculate your carbon footprint, develop reduction pathways, and help you set credible science-based targets aligned with Net Zero ambitions.

**Life Cycle Assessment (product / packaging / service)**

Our LCA specialists analyse environmental impacts across the full product life cycle, identifying hotspots and opportunities for design improvement.

**Packaging Technology Consultancy & circularity support**

We provide expert advice on material selection, recyclability, and circular design to meet sustainability targets and regulatory demands.

**Regulatory Horizon Scanning**

Stay informed with tailored updates on upcoming ESG and environmental legislation relevant to your operations and markets.

**Energy Management & optimisation**

Identify inefficiencies, reduce energy consumption, and cut costs through data-driven monitoring and optimisation strategies.

**Streamlined Energy & Carbon Reporting (SECR) Compliance Support**

Ensure accurate SECR data collection, calculation, and reporting — meeting your obligations efficiently and transparently.

#### **Energy Savings Opportunity Scheme (ESOS) Compliance Support**

We deliver full ESOS audit and compliance support, helping you identify cost-saving energy efficiency opportunities.

#### **Supply Chain Data Management & Reporting**

Gather, verify, and analyse supplier ESG data to improve transparency and support credible reporting across your value chain.

#### **ESG Benchmarking, Stakeholder Alignment & Reporting**

Benchmark your ESG performance, align with customer and investor expectations, and produce clear, consistent reports.

#### **Carbon Border Adjustment Mechanism (CBAM) readiness**

We assess your exposure, prepare data systems, and ensure your business is ready to comply with upcoming CBAM requirements.

#### **Zero Waste to Landfill Certification**

Demonstrate your environmental commitment with independent certification verifying waste diversion and responsible resource management.

# Why choose Valpak

---

**Built on experience, backed by data**

**Comprehensive ESG rationale:** A holistic, business-aligned approach to sustainability.

**In-depth audits:** Detailed assessments that define baselines, scope, and gaps.

**Regulatory expertise:** Decades of experience across SECR, ESOS, and EPR.

**Practical consultancy:** Implementation-focused, not just advisory.

**End-to-end ESG services:** Full life cycle coverage under one roof.

**Trusted market leader:** Supporting 2,000+ businesses as the UK's largest compliance scheme.

**Proven sustainability credentials:** EcoVadis Platinum rated – top 1% globally.

**Data-led and value-chain connected:** Insights powered by advanced analytics.

## Designed for every business stage.

Whether you're at the beginning of your ESG journey or advancing towards Net Zero, Valpak's services scale with your business.

We can help you if you:

- Face growing customer or investor ESG demands
- Need to align internal practices with external expectations
- Seek credible, transparent data and reporting
- Want to link ESG performance with operational outcomes
- Aim to future-proof your business against changing regulations

# Our approach: From Position Audit to strategy to results.

---

## Position Audit

Understand your ESG baseline and identify improvement opportunities.

## Strategy development

Build a roadmap with measurable, aligned objectives.

## Implementation & monitoring

Embed ESG principles and track ongoing performance.

## Reporting & continuous improvement

Build a roadmap with measurable, aligned objectives.
